

# IT'S A CLEAN SWEEP WITH SWIMS!

Maintaining a clean and safe environment is essential. Debris such as plastic, cardboard, nails, and pallet splinters are problematic, especially around a busy distribution center. Regularly scheduled maintenance of your facility's paved surfaces that includes debris cleanup and street sweeping will prevent punctured tires, improve air and water quality, and even boost brand reputation.

Our modern fleet of street sweepers and professionally trained staff will keep your site safe and looking great.

Our specialties:

- ✓ Distribution centers
- ✓ Construction and Concrete production sites
- ✓ HOA-managed communities
